# LINEAR SYSTEM SERIES

THOMAS BENTZEN ON THE DESIGN "The Linear System Series places people at its center, being a place to meet, to collaborate or to work in focused solitude. The design process was about creating a system that made for intimately welcoming atmospheres, enhanced by the expression and functionality of its lighting and accessories. With its warm materiality and modern expression, the Linear System Series brings feelings of home into larger spaces to give the user a sense of belonging, even if being there only for a little while. The extensive selection of lighting and accessories means that the Linear System Series can be configured and reshuffled for any purpose of the modern workplace as well as hospitality settings and public areas, marrying the ideas of aesthetic and function into one."
